led lights ... LED BY INNOVATION.. ..

SHAPING THE FUTURE OF LIGHT

who we are

goooled srl born from decades experience of a team of designers in the lighting industry, with the aim of offering products and services of high quality in the field of LED lighting solutions. Ours is a constantly expanding, thanks to the fruitful collaboration that has been established with our customers. We are a reliable partner with small businesses and large Italian industries, ensuring quality of highly technical products. Our products grow with our customers, we like to deal with them, sharing knowledge and following the signs that give us, making us available to any customizations.

What we do

goooled srl always developed LED lighting fixtures with a high ENERGY SAVINGS and a high aesthetic quality. Care DESIGN, in collaboration with several architectural firms, mechanical design, optical, electronic and lighting simulations conducted internally, allow goooled to be an ideal supplier. Goooled controls every stage of production and lighting design. Our philosophy and the need to think different that distinguishes us, leads us to be often called the "TAILORS LIGHTING".
